CAREER OBJECTIVE

I am a passionate and results-driven Frontend Developer with strong expertise in creating responsive, dynamic, and user-focused websites and web applications. I specialise in building modern, performance-optimised interfaces using the latest frontend technologies and CMS platforms. I am eager to contribute to a forward-thinking team where I can apply my technical skills and creative mindset to develop scalable and impactful digital experiences.

SKILLS

- **Expert:** HTML, CSS, JavaScript, React JS, and WordPress.
- **Comfortable:** Tailwind CSS, Bootstrap5, DaisyUI, Elementor, Divi Builder, WooCommerce, Hello elementor, plugin configuration.
- **Tools:** VS-Code, Firebase, Netlify, Surge, Vercel, Git, Github, Elementor, Plugin, Localwp, Adobe Photoshop, illustrator.
- **Interpersonal Skills:** Team Collaboration, Time Management, Client Communication, Problem solving with others, Leadership, Negotiation Skills, Possitive Attitude.

PROJECTS

1. Emergency Hotline

– [Live Link](#)

Developed a dynamic environmental website using HTML, JavaScript, Tailwind CSS, and DaisyUI. Designed an intuitive and visually appealing interface, incorporating interactive features for easy access to emergency contacts.

2. Green Earth BD

– [Live Link](#)

Developed a dynamic environmental website using HTML, JavaScript, Tailwind CSS, and DaisyUI. Integrated RESTful APIs to display real-time project data, and built responsive, interactive UI components while effectively handling asynchronous data and dynamic rendering.

3. CS- Ticket System

– [Live Link](#)

Developed an efficient ticket management system using HTML, JavaScript, Tailwind CSS, DaisyUI and React. Integrated APIs to fetch and update real-time ticket data. Built responsive and interactive UI components for seamless user experience. Showcased strong problem-solving skills by managing dynamic content and optimizing data flow.
